Migrations just got serious

Yes. You can migrate legacy ECM systems to Microsoft 365

The industry is ready for the cloud & Microsoft is ready to replace legacy ECM systems.

Let us do the heavy lifting. Xillio can migrate content from any legacy ECM system into Microsoft 365 and leverage Project Cortex and SharePoint Syntex.

Drive your Azure consumption and Microsoft 365 license upgrades

Documentum

OpenText

FileNet

HPTrim

50+ more

xillio

Microsoft 365

Identify valuable content using visual dashboards.

Make data-driven decisions on mapping and restructuring.

Migrate content and metadata into Microsoft Teams, OneDrive, SharePoint Online and Azure.

Let's go xillio
